App Name: FlySavvy

App Description:

FlySavvy is a cutting-edge flight booking app designed to streamline the process of finding and booking flights for travelers. Our app aims to provide a seamless and user-friendly experience for individuals and businesses seeking to explore the world by air. With an intuitive interface and a wide range of features, simplifies the flight booking process and offers travelers a one-stop solution for all their needs.

Target Audience:

FlySavvy is designed for a diverse audience of travelers, including:

Leisure travelers, business professionals, students, and backpackers as well as frequent travelers who require a reliable and user-friendly flight booking app.

Key Features:

FlySavvy will provide the following key features to enhance the user experience:

1. Flight Search and Comparison:

- Users can search for flights based on their preferred dates, destinations, and budget.
- The app offers a comprehensive comparison of available flights, including different airlines and ticket prices.

2. Flexible Date and Destination Options:

- Travelers can explore flexible date options, allowing them to find the best deals by adjusting their travel dates.
- A "Explore Destinations" feature will enable users to discover new places within their budget.

3. User Profiles:

Users can create an account on FlySavvy, they can set up their unique profile, including their name, contact information, and travel preferences.

4. Price Alerts:

- Users can set price alerts for specific routes and receive notifications when ticket prices drop or rise.
